Bill Report:

Navigation menu - Bill Print

Bill Printing Page will come

This page will have 3 controls

1. Bill Date
2. Customer Group - Drop Down - default will be all customer groups
3. Customer Name - Drop Down (values based on selected customer group) - default will be all customers

3 buttons will be there below above 3 controls

1. Show Bills
2. WhatsApp Bills
3. Close

Show Bills will generate a page with bills for selected date and customer group/customer name

Bills will be show one below another as depicted at left hand side.

Each bill will have different number of items, hence the height cannot be fixed for each bill.

Last bill of the page may spill over to next page

Printing should be allowed directly from web page or it can be downloaded in PDF format.

WhatsApp Bills:

This will send bills on WhatsApp message to individual customers on their mobile number.

It should show the list of customers with their mobile numbers based on the selected criteria with check boxes. user should be able to select customers before sending WhatsApp messages. Records with no or incomplete mobile number should not be selected for sending message. WhatsApp messages will be sent to customers with mobile number only.
